Developer Tools: Git, VS Code, Postman, Docker, npm, Webpack, Chrome DevTools, Firebase, AWS

Additional Skills: CI/CD, Unit Testing, API Testing, Performance Optimization

Experience

Frontend Engineer Intern

RegisterKaro

Present

Gurugram, India

- **Optimized Core Web Vitals**, improving website speed by **80%** using Google PageSpeed Insights.
- Developed **React JS components** for dashboard, implementing **API fetching** for real-time data display.
- Worked with teams to refine UI, improve data flow, and boost SEO for better UX and visibility.

Projects

AI Stock Momentum | *Stock Analysis Tool* | [Live Link](#) 🔗 | [GitHub](#) 🐙

Tech Stack: React JS, Node JS, Express.js, MongoDB, Tailwind CSS, OpenAI API

- Developed a full-stack stock analysis platform integrating **AI-powered predictions** for Indian markets.
- Implemented **multiple technical indicators** (RSI, MACD, Bollinger Bands) for trend analysis.
- Integrated **AI-powered analysis** and market sentiment recognition for risk assessment.
- Enabled **PDF report generation** for investment decision-making.

NetflixGPT | *AI-Powered Netflix Clone* | [Live Link](#) 🔗 | [GitHub](#) 🐙

Tech Stack: React JS, Tailwind CSS, Firebase, Redux, OpenAI API

- Built a Netflix clone leveraging **GPT-3** and **TMDB API** for personalized recommendations and search.
- Implemented **secure authentication** with Firebase and state management using **Redux**.
- Created responsive UI with **Tailwind CSS** and optimized component rendering.
- Deployed using Firebase Hosting with **production-ready optimizations**.

Education

Shri Shankaracharya Technical Campus

B.Tech, **CGPA: 8.43/10**

Bhilai, Chhattisgarh

2019 – 2023
